Thank you to the Dogs Trust who put together a workshop for the children this week. They learnt about how the trust finds and takes care of the animals that come into their care and the hard work involved in rehousing these animals.

#### **Early Help**

##### **What is Early Help?**

Early Help is the term used by all agencies to describe North Yorkshire's approach to providing early support to families at any stage of a child's life when a problem or difficulty first arises. Early Help supports children, young people and their families to be happy, healthy and safe, as well as helping them to achieve their potential and increasing their ability to manage life's challenges.

North Yorkshire County Council, Children and Families: Early Help Teams work closely with families, schools, health and other key partners to provide the right level of support at the right time. They will support families around concerns they may have about a child/young person. It could be around behaviour, difficulties at school, routines and boundaries or other problems. The Children and Families: Early Help worker will build on their family's strengths and work with them to find solutions.

You can view information about how Early Help supports you and your family in the leaflet attached ([click here](#)).
